

SUPER COMPUTER

We Started To Build The **SPARTA Super Computer** Because Of A Client In Africa. Now We Offer It IN THE USA As A Super Reliable System For

SPARTAMATION

A Sample Radio Station Format Is Installed In This Rugged RAID 1 Array. The Only Way This Computer System Ever Stops, Is If You Turn Off The Power. We Always Recommend Using A Battery UPS with AC Power Flow Through. This system is the final answer for reliability in a Radio Automation System! We say it is ABSOLUTELY UN-STOPPABLE!

LOOK AT WHAT YOU GET:

- Hot Swappable, Duplicated 500 GB 7200RPM Hard Drives
- Raid 1 Configuration
- A Sample Oldies Station Format As A Demo
- One Spare Hard Drive On The Shelf In Case Of The Rare Failure

MORE GOOD NEWS!

- With the purchase of the SUPER COMPUTER & SPARTAMATION, You'll Get 1 Year of FREE TECHNICAL SUPPORT!
